## GLOBAL MARKET

As a result of our subsidiary companies and sales teams, GH has a major presence in the Global Market. With such a presence in the Global Market, we are able to meet the demands of whatever type of project our clients demand.

We are aware that it is only companies with a good product, the right work force and with an international presence that have a future.

For GH the market has changed and as a result its priorities.

Now our market is the Global Market

# PORTAL CRANES WITH LATTICE STRUCTURE

Portal Cranes with a lattice structure, are designed to reduce the maximum surface area against wind resistance, optimising its power for the long travel movement.

They are particularly suited for working in large outdoor areas and places exposed to high winds.

# RUBBER TYRE GANTRIES (RTG'S)

Marine and Industrial RTG's are particularly adapted to work independently in whatever field.
